PERMIT AND INSPECTIONS INFORMATION

The following information shall accompany this permit application. No application shall be reviewed or approved without the following information:

1. The Stormwater Pollution Prevention Plan (SWP3)-A detailed written plan shall be submitted in the format provided by the City and shall be reviewed in conjunction with this permit.
2. Copy of the Notice of Intent (NOI) that has been filed with ODEQ.
3. A detailed to-scale site plan that shows at a minimum the following items:
 - a. Drainage arrows of direction of the surface water flow
 - b. All inlets and outflows to the MS4
 - c. All sediment basins and/or detention ponds. Label as to whether temporary or permanent.
 - d. Area for Concrete Truck Cleanout
 - e. Location and details of all erosion control methods to be used

The Applicant shall inspect the job site on a bi-weekly basis for failures in the erosion control measures. For projects draining into an impacted creek, these inspections shall be made on a weekly basis. All erosion control measures shall be maintained and/or repaired as needed.

City Officials shall make regular inspections of the job site. A 10-day warning shall be given for any failures in the erosion control measures. After the 10-day warning period, inspections in the affected area may be stopped and/or a citation may be issued.

CERTIFICATION

All applications shall be made and signed by the owner/developer of the project. This person shall be held responsible for all erosion control activities described in the SWP3. Please check that your current address and phone number are listed on page 1 of the permit application, including your emergency contact information

I certify under the penalty of law that I have personally examined and am familiar with the information submitted in the attached document and all supplements; and, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate and complete.
