November 3 Special Election '26

Two City of Moore propositions will be on the ballot for residents: 1/2 cent sales tax renewal and \$18 million in GO bonds for drainage improvements.

PROPOSITION: ½ CENT SALES TAX RENEWAL

Consider the renewal of the existing ½ cent sales tax. The revenues generated will be allocated as follows: 70% Residential Street and Residential Collector Street Repair, 20% Public Safety Machinery and/or Equipment and 10% Public Safety Operations.

Passage of this proposition would not raise the sales tax rate. The current rate of 8.5% would remain the same.

PROPOSITION: \$18M GO BOND FOR DRAINAGE IMPROVEMENTS

Consider approving \$18 million in general obligation bonds to construct, re-construct, improve or repair streets, bridges and drainage. Identified projects are:

- NE 20th and Lincoln
- Rambling Oaks Drive
- Sooner Drive, north of SE 34th (design and initial construction)

Passage of this proposition would not raise the City's portion of the millage rate above the current cap of 16.5 mills.

Part 1 of 3: What the RTA *meant* to do.

The idea of trains connecting the OKC metro did not start last year. In 2005, a Fixed Guideway Study asked whether light rail or similar service could work here. The Association of Central Oklahoma Governments (ACOG), then pulled cities together through a task force. The question was simple: is a regional rail system a viable option for our metro?

Six cities sat at that table: Oklahoma City, Edmond, Norman, Midwest City, Del City, and Moore. We worked with ACOG to look at routes, costs, and whether people would actually use the system. Early studies focused on a north-south line and other corridors that might one day carry commuter rail, light rail, or faster bus service.

In February 2019, those same six cities signed a trust agreement and created the Regional Transportation Authority of Central Oklahoma. The RTA became its own public agency. Its job was to plan, pay for, build, and run regional transit. In 2026 the agency changed its public name to ONE Transit.

In plain terms, the RTA — now ONE Transit — is supposed to connect the metro so people can ride to work, school, games, and appointments without always getting in a car. Read the agency's own explanation at onetransit.org. ACOG's studies are at acogok.org.
