

Growth and Development Data for Moore, OK

Along with the 549 permits for single-family homes in the storm-damaged area, Moore has issued 372 single-family permits in the non-damaged area since May 21, 2013. This demonstrates people's desire to live in Moore.

Commercial growth has also not slowed as 25 new commercial permits have been issued in the non-damaged area while 19 commercial permits have been issued for destroyed commercial property. It is estimated there were close to 50 commercial structures destroyed on May 20, 2013.

Businesses are still very determined to develop in Moore and the Moore Economic Development Director estimates over 300,000 *new* sq. ft of retail and office development will be underway or announced in 2014. This does not include the sq. ft. that will be re-built from May 20th storm.
