

Are You Covered For Sewer Backups?

Be sure your homeowner's insurance policy covers damage due to a sewer backup. Even if a backup is due to a blocked City main, the City may not be allowed to pay for damages. Under State law, cities are liable for sewer main backup only if there has been prior notice and time to fix the problem.

Although City crews can help clean up the immediate mess, homeowners, not the city, must pay for replacing carpets, furniture and repairs.

Another sewer backup safeguard is to install a check valve. This simple device keeps wastewater from flowing back up your private line into your home. (Check valves are now required on some newer homes).

Improvements to the City's sanitary sewer system have reduced backups considerably in recent years. That doesn't mean much if it happens in your house.

CALL AHEAD! Call us 24 hours a day at 793-5080 if you have signs of developing backup. Signs of blockage include: slow draining sinks, wastewater back flow and/or continuous sewage smell.

If there's a problem with the City line, we should be able to fix it before sewage backs up into your house. If your private line is blocked, we'll inform you so you can get it fixed.
