

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City of Moore is carrying out activities funded by the Community Development Block Grant (CDBG) program in a manner consistent with the certifications required as a part of the Consolidated Plan. The City of Moore continues to implement the goals and objectives identified in the five year consolidated plan to achieve development of a viable urban community. In the 2019 Action Plan, the city identified a total of five public service activities, one fair housing activity, and one public infrastructure improvement activity that would be funded during the 2019-2020 program year.

The activities proposed in the 2019 Action Plan include:

- Aging Services, Inc. was awarded funding to provide home bound Moore senior citizens with hot delivered meals.
- Bethesda, Inc. was awarded funding to provide counseling services to sexually abused children and their non-offending caregiver.
- Moore Youth and Family was awarded funding to provide a pre-intervention program to students in the Moore Public School system.
- Moore Youth and Family was awarded funding to provide counseling services to first time offenders for Moore youth.
- Central Oklahoma Community Action Agency was awarded funding to provide utility and rental assistance to low income residents.
- Metropolitan Fair Housing Council was awarded funding to provide educational materials and services for fair housing issues and complaints for Moore residents.
- The N. Janeway/Gale Avenue Sewer Replacement was the public improvement activity. The environmental review and construction easements were acquired during the 2019 program year. Construction started in October.

The City of Moore was awarded additional funding from the CARES Act through Community Development Block Grant Coronavirus (CDBG-CV) funds. The City was allocated \$200,472.00 in April of 2020. Multiple public service organizations were consulted as well as the CDBG Advisory Committee. The following activities were funded with the initial round CDBG-CV funding.

- Aging Services, Inc. was awarded funding for newly identified senior citizens who were in need of home delivered meals. Congregate meal sites are closed due to the pandemic and many seniors depended on those meals. Because of the closure of meal sites, the need for home delivered meals increased significantly.
- Central Oklahoma Community Action Agency was awarded funding for a rent/mortgage and utility assistance program for low to moderate income residents who have been affected by the coronavirus pandemic.
- The Salvation Army was awarded funding for a rent/mortgage and utility assistance program for low to moderate income residents who have been affected by the coronavirus pandemic. Because of the high demand of this assistance, the City decided to fund a second public service agency for this program.
- Metropolitan Fair Housing Council was awarded funding for tenant/landlord counseling, eviction prevention services and legal services, and outreach to 600 Moore tenants of multi-family properties informing them of these services.
- Moore Faith Based Medical Clinic was awarded funding for personal protection equipment (PPE) such as hand sanitizer, gloves, masks, clothing protection, etc.
- The Regional Food Bank of Oklahoma was awarded funding for the Moore Food and Resource Center. These funds provide 70-80 pounds of food once a month to Moore households. These households must be affected by the coronavirus pandemic. The Food and Resource Center has seen a major increase in the need for grocery assistance since the pandemic.
- The City of Moore funded sanitation of The Station recreation center. A UV-C treatment was completed.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete
Community Development	Non-Housing Community Development	CDBG: \$	Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit	Persons Assisted	5000	7443	148.86%	106	408	384.91%
Community Development	Non-Housing Community Development	CDBG: \$	Public Facility or Infrastructure Activities for Low/Moderate Income Housing Benefit	Households Assisted		0				
Community Development	Non-Housing Community Development	CDBG: \$	Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	1000	5000	500.00%	277	3897	1,406.86%
Community Development	Non-Housing Community Development	CDBG: \$	Homelessness Prevention	Persons Assisted	0	3390		0	3390	

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The City of Moore strives to implement its 5-year Consolidated Plan priorities and objectives, which was developed through input from agencies, the public, and focused on programs that can be recommended to meet underserved needs. During the funding year, the City continued its strategy of investing the majority of CDBG funds on a citywide basis to activities that demonstrate significant leveraging of limited CDBG resources while benefiting low to moderate-income persons both directly and through community growth.

The City of Moore continually pursues other grant funding to address the needs of our low-moderate-income persons. The City has a robust Grants Program that actively pursues various grant funding.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG
White	2,560
Black or African American	328
Asian	40
American Indian or American Native	144
Native Hawaiian or Other Pacific Islander	1
Total	3,073
Hispanic	302
Not Hispanic	2,771

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

This above table did not include the following racial/ethnic status of individuals assisted:

Other Multi Racial: 772 with 80 Hispanic

Black/African American and White: 17

American Indian/Alaskan Native and Black/African American: 8

American Indian/Alaskan Native and White: 27

The total is 3,897 with 382 being Hispanic.

CDBG Entitlement funds assisted a total of 314 individuals and the CDBG-CV funds have assisted 3,583.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	338,003	112,594

Table 3 - Resources Made Available

Narrative

The Resources made available for CDBG consists of 2018 program year funding of \$16,044.11 and 2019 program year's allocation of \$321,959.00. The "other" resources available is the CDBG-CV initial allocation.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Armstrong			
CRESTMOORE			
Kings Manor			
Regency Park			
Southgate	65	65	
Sunnylane Acres			

Table 4 – Identify the geographic distribution and location of investments

Narrative

The N. Janeway/Gale Sewer Line Replacement public improvement activity is located in the Southgate area. Although funds were not spent this program year on this project, the environmental review was completed and the construction easements were acquired. Construction began in October and is expected to be complete by March of 2021. This activity will use the remaining funds from 2018 of \$16,044.11, \$209,275 of 2019 funds, and \$221,510.20 of 2020 funds.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

Utilizing information gathered from consultation with the CDBG Advisory Committee, City Departments, City Management, and the general public, public improvement needs are identified. By providing this list of identified projects, the CDBG Advisory Committee and the City Council prioritize the projects and these projects are approved as additional funding is available. The City's General fund provides funding for engineering services and acquisition costs for public improvement projects. The City of Moore continues to seek additional funding from local, state, and federal resources to maximize the effectiveness of CDBG funds.

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	0	0
Number of Non-Homeless households to be provided affordable housing units	0	0
Number of Special-Needs households to be provided affordable housing units	0	0
Total	0	0

Table 5 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	0	25
Number of households supported through The Production of New Units	244	0
Number of households supported through Rehab of Existing Units	0	0
Number of households supported through Acquisition of Existing Units	0	0
Total	244	25

Table 6 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The City of Moore's 5-Year Consolidated Plan recognized that the City's CDBG allocation is inadequate to address housing needs directly, but instead rely upon public service agencies to provide needed housing services. For the 2019 Entitlement program year, the Central Oklahoma Community Action Agency provided utility and rental assistance. This service helped prevent homelessness for the families who were assisted.

With the additional CDBG-CV funding, the City has allocated funding to the Central Oklahoma Community Action Agency and the Salvation Army for rental/mortgage/utility assistance for those affected by the coronavirus pandemic. Fourteen households were assisted with CDBG funds. Eleven households have been assisted with CDBG-CV funds so far.

With the City's CDBG-Disaster Recovery funds, the city has subsidized a mixed-used, mixed-income multi-family development. Out of 244 total units, 219 will be affordable. Construction has been delayed due the pandemic. The first building is schedule to be completed by January 31, 2021, and the remaining two are expected to be completed the spring of 2021.

Discuss how these outcomes will impact future annual action plans.

The affordable housing development currently under construction will help fill the low stock of affordable housing in Moore. Once the development is complete, Moore will be servicing at least 219 low income households each year. The City has also found value in funding the utility and rental assistance program for low income families through the Central Oklahoma Community Action Agency. The City has determined this type of assistance is a priority need for the community. Because of the coronavirus pandemic, this program is essential for the community. The City of Moore will continue its commitment to create diverse housing opportunities and ensure the availability and affordability of a variety of housing by collaborating with the development of community and housing organizations to build affordable housing in the community.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	24	0
Low-income	0	0
Moderate-income	1	0
Total	25	0

Table 7 – Number of Households Served

Narrative Information

CDBG-CV funding assisted 10 extremely low income household and one moderate income household. CDBG Entitlement funds assisted 14 extremely low income households.

The City of Moore will continue its commitment to create diverse housing opportunities and ensure the availability and affordability of a variety of housing by collaborating with the development of community and housing organizations to build affordable housing in the community and programs that assist with low income families in preventing homelessness.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of Moore has made great strides in its efforts of reaching out to homeless persons. A partnership has been established between Capital Planning and Resiliency staff, police officers, and a local pastor. If police officers come across any unsheltered persons, contact is made with the pastor. The pastor locates the unsheltered persons and provides them transportation to the emergency shelter in Norman. City staff, the pastor, and the Moore Public Schools McKinney Vento Homeless Liaison have been conducting weekly meetings with the Norman/Cleveland County Continuum of Care (CoC). With the CoC's guidance, Moore is now reaching out to its homeless in a more effective and positive way. When contact is made with any homeless individuals, as much information about the individual is gathered and a Release of Information for is completed. With this information, homeless individuals are connected with the best resources to assist them with their situation.

The City is working on growing this partnership. The pastor has been in contact with several local churches and has invited them to join this coalition. Most, if not all, resources for homeless individuals are located in Norman. The City of Moore determined the quickest and best assistance it can give homeless persons is transportation to these services. With the establishment of a coalition like this, progress can be made in the outreach to homeless persons in Moore. In the next year, city staff, the pastor, and the schools homeless liaison will be completing training for the Vulnerability Index-Service Prioritization Decision Assistance Tool (VI SPDAT). Once this training is completed, focus will be given to growing this coalition and establishing a formal transportation program for homeless individuals in Moore.

Addressing the emergency shelter and transitional housing needs of homeless persons

There is one year-round emergency shelter for all of Cleveland County, located in Norman. The City of Norman/Cleveland County Continuum of Care open a seasonal warming shelter each year, also located in Norman. Individuals who stay in the emergency shelters are screened using the VI-SPDAT at intake for program eligibility and to determine the level of assistance needed. Intake staff provides connections to resources such as employment services and food resources to help stabilize basic needs. Intake staff also coordinate limited resources with the CoC. The CoC has a system to increase coordination and avoid duplication of services.

The City of Moore is currently planning a transitional housing program in response to the coronavirus pandemic. City staff has established a relationship with the McKinney Vento Homeless Liaison for the school district. She has expressed a huge need for assistance with rapid rehousing. The rapid rehousing

program will consist of deposit and rental assistance for those who are homeless. During the application and eligibility process, the need of how many months' rent and/or deposit assistance will be determined. Hotel/Motel Vouchers are being discussed to be included in this program. This program is still in the planning stages and the City plans to have it up and running by the Spring of 2021.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The City of Moore does not have any publicly funded institutions within its city limits. However, with partnerships strengthening between City of Moore staff, the Moore community, and the Norman/Cleveland County Continuum of Care, Moore is more familiar with resources for the homeless now more than ever. The CoC will be adding a housing navigator to their organization. This housing navigator will be an extremely valuable asset to develop a protocol for homeless individuals who are released from mental health and health care facilities. Once this protocol is developed between the hospital, information can be shared between organizations who offer resources and coordinate housing. A local pastor is our acting Coordinated Case Manager for any homeless individuals in Moore. He will work closely with the CoC and coordinate with the appropriate agencies best suited to assist.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

In order for formerly homeless individuals to remain housed long-term, it is imperative they have a reliable income from employment or from benefit programs. Case managers in emergency, transitional, and permanent supportive housing programs determine eligibility for mainstream benefit programs and support clients in the enrollment process. This includes gathering documents such as; driver's license or identification cards, birth certificate and Social Security. The case manager will assist with completing application forms, and scheduling initial appointments. Clients are then given referral packets to each program they are eligible, including addresses and directions to the benefits office, transportation details, and program information sheets.

In the past, the City of Moore has lacked case managers for the homeless. The established partnership with the local pastor has identified a case manager for Moore. As the initial contact for the homeless, the pastor will become the case manager for these individuals to coordinate and determine what

assistance is needed. The homeless liaison for the public school system facilitates housing options for homeless families. With the planned rapid rehousing program the City is currently planning, the period of time that individuals or families experience homelessness will shorten or will be prevented entirely.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The City of Moore continues its commitment to create diverse housing opportunities and ensure the availability and affordability of a variety of housing by collaborating with the development of community and housing organizations to build affordable housing in the community. Using CDBG-DR funds, the City has subsidized the construction of a 244 unit multi-family development, with 90% of the units designated as affordable,

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

The City of Moore does not have any public housing.

Actions taken to provide assistance to troubled PHAs

The City of Moore does not have a Public Housing Authority.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The City continues to evaluate the building codes, zoning ordinances, and land usage. Because of continued evaluation, this has allowed the City to change growth limitations and encourage citizens to build homes in Moore.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The City of Moore strives to implement its 5-year Consolidated Plan priorities and objectives, which was developed through input from agencies, the public, and focused on programs that can be recommended to meet underserved needs. During the funding year, the City continued its strategy of investing the majority of CDBG funds on a citywide basis to activities that demonstrate significant leveraging of limited CDBG resources while benefiting low to moderate-income persons both directly and through community growth.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City of Moore has contacted the Oklahoma State Department of Health Lead PPPE and the State has provided the City with 2019 numbers. A total of 53,172 children in the State of Oklahoma were tested and 1,379 of those children lived in Moore. Nine children from Moore had elevated blood lead levels. This number did not change from 2018. The total amount of children for the state of Oklahoma who had elevated blood lead levels was 655, which is a decrease from 2018. The Health Department explained that elevated blood lead levels do not necessarily indicate lead based paint hazards. There are many non-traditional sources of lead exposure which may have contributed to the elevated blood lead levels. The Health Department does not collect information on previous residences, so they cannot specifically say the lead exposure happened while the children lived in Moore. The City of Moore follows all federal and state regulations regarding lead based paint. However, due to the small amount of annual funding, the City of Moore does not administer a housing rehabilitation program in Moore.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City of Moore continues to promote efforts that incorporate supportive services to assist extremely low and low-income residents to achieve self-sufficiency. The City also encouraged applicants from non-profit agencies for programs that are directed toward extremely low, low and moderate-income individuals. The City funded a rental/utility assistance program through the Central Oklahoma Community Action Agency and the Salvation Army with both CDBG Entitlement funds and CDBG-CV funds. This program was able to assist and prevent homelessness for 53 households this program year.

The City also provided CDBG-CV funds to the Moore Food and Resource center to provide 10-15 pounds of groceries per month. A total of 2,574 residents have received grocery assistance. By providing these services, the City is taking actions to help reduce the number of poverty level families in Moore.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The City coordinates with Metropolitan Fair Housing to help provide educational and informational services of fair housing issues to its residents. These services include tenant/landlord counseling and mediation, eviction prevention and/or legal intervention.

The City of Moore works closely with several agencies to develop partnerships to identify and respond to developing needs in Moore.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

The City of Moore encourages agencies to collaborate with each other. The Capital Planning and Resiliency staff makes diligent efforts in establishing relationships with all types of organizations. With established relationships, the City can help facilitate important partnerships between organizations to best serve the community. Partnership with non-profit agencies that serve Moore residents is necessary to meet the housing and supportive service needs of the public. Staff from the Capital Planning and Resiliency department participates in the Coordinated Case Management Conference hosted by the City of Norman every week. This weekly conference assists all homeless service providers in Cleveland County with the case management of the homeless or individuals/families who are on the verge of becoming homeless.

The City of Moore has also been able to fund a mortgage/rental and utility assistance with two non-profit agencies with its CDBG-CV funding. With the help from the Central Oklahoma Community Action Agency and The Salvation Army, a total of 53 residents have received assistance. This assistance is extremely crucial to the low income population to prevent homelessness and the spread of the coronavirus. The City anticipates to help approximately 200 families in the 2020 program year with CDBG-CV funds.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

In the City of Moore's 2015 Analysis of Impediments to Fair Housing Choice, it was found that the City should promote a mix of housing unit types in all neighborhoods and new developments for residents of all economic levels. It also stated the City should explore the possibility of density bonuses and/or requirements for moderately priced dwelling units in developments. With the CDBG-DR funding, the City was able to subsidize a mixed-use, mixed income multi-family development called The Curve. This development will have both affordable units as well as market rate units, with all units being identical.

Out of the 244 residential units, 219 will be affordable. The analysis also found housing that provides for the special needs of persons with disabilities is in short supply in Moore. Within The Curve, 5% of all units will be mobility accessible and 2% of all units will be sensory accessible. Units that are sensory accessible will not be the same units as those that are mobility accessible.

The City of Moore will continue its commitment to create diverse housing opportunities and ensure the availability and affordability by collaborating with community and housing organizations to build affordable housing in the community.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

Monitoring is conducted in a manner consistent with the HUD regulatory guidelines that apply to CDBG funds. Depending on the nature of the funds usage, different eligibility and compliance factors may be reviewed. City Staff keeps continuous contact with sub recipients during the duration of the project. Annual monitoring visits follow the sub-recipient monitoring checklist to ensure comprehensive monitoring is completed. For projects following Davis-Bacon requirements, City Staff meets with sub-recipients before any bids are solicited and with contractors before any work can begin. To assist with monitoring, the Capital Planning & Resiliency Department follows HUD developed guidelines and a sub-recipient monitoring checklist. The checklist ensures that consistency is provided during a monitoring visit and allows sub-recipients the ability to know what will be expected during a visit.

The City takes a proactive approach rather than reactive to ensure timeliness and compliance from sub-recipients and contractors. The implemented strategy includes a pre-application workshop for all applicants prior to submitting an application for funding. This workshop provides reporting and documentation requirements as well as eligible and ineligible costs. City Staff conducts an on-site visit to all successful applicants to complete an initial assessment of their capacities, their program, and service environment to determine the frequency of City Staff monitoring. Because the City's CDBG Program operates on a reimbursement-basis, City Staff is able to closely monitor the expenditures of each sub-recipient to ensure that all expenses are eligible for reimbursement. Sub-recipient beneficiary reporting is a condition for cost reimbursement.

City Staff has generally found that programs and projects are operating according to the regulations and the terms and conditions of agreements. The City of Moore focuses on areas of eligibility of beneficiaries and expenditures. Overall, programs and projects have a good record, especially given that funds are disbursed on a reimbursement basis, with source documents reviewed prior to approval. City Staff works closely with all sub-recipients and contractors and maintains close working relationships to ensure all work is completed according to CDBG regulations and contract requirements. This also allows for City Staff to determine areas of concern with each sub-recipient, in addition to areas where enhanced guidance may be needed with future contracts.

All CDBG programs are focused on meeting the needs of low/moderate income households and individuals. Without CDBG funding, many of the programs would be unable to assist as many people and some may not continue to exist. Throughout the funding cycle and awarding of CDBG funds, the Capital Planning & Resiliency Department works towards directing funding to projects that meet the goals and objectives in the consolidated plan. During the 2019 funding cycle, projects that were awarded funding

addressed high priorities (Senior Services, Child Care Services, Abused & Neglected Children, Health Services, emergency payments, Program Administration, and Fair Housing Activities). Through the CDBG program, local non-profit organizations were able to provide enhanced and expanded services for the community.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

Public notices for the 2019 Consolidated Annual Performance Evaluation Report (CAPER) were published in The Oklahoman and the El Naccional de Oklahoma newspapers. Public notice was also posted at the Moore Public Library, the Brand Senior Center, and the city's website, www.cityofmoore.com. The draft CAPER can be viewed on the City of Moore website or in person at the Capital Planning and Resiliency Department at Moore City Hall, 301 N. Broadway Moore, OK 73160. Public comments on the CAPER were accepted from November 6, 2020 through December 7, 2020. The city directed comments to be submitted in writing to Kahley Gilbert at 301 N. Broadway Moore, OK 73160 or by calling 405-793-4571. The draft CAPER was presented to the CDBG Advisory Committee on November 19th, 2020 and the meeting was open to the public for comment. The draft CAPER was presented to the city council on December 7th, 2020 and all comments were welcomed from the public during the hearing. Citizens were provided the option of attending the public hearing and providing comments virtually via Zoom. Citizens were asked to contact the Capital Planning and Resiliency department to make arrangements.

The City of Moore encourages participation from all its citizens. If participation at any public meeting is not possible due to a disability (such as a hearing or speech disability) or a language barrier, notification to the City Clerk at least forty-eight (48) hours prior to the scheduled public meeting is encourages to allow the City to make the necessary accommodations.

Requests for the draft CAPER or related documents in alternate formats consistent with provisions of federal requirements related to limited English proficiency was directed to the Capital Planning and Resiliency department. Public notice was published in Spanish in the El Naccional de Oklahoma newspaper and on the City of Moore website, www.cityofmoore.com.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

There were no changes.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.
