

Plan Your Family Fire Escape

A small flame can get out of control and turn into a large, uncontrollable fire in less than 30 seconds.

- Plan for two ways to escape from each room.
- If you live in a multi-story apartment building, map out as many escape routes as possible to exit stairways on your floor of the building.
- If you live in a high-rise, plan to use the stairs - never the elevator - to escape a fire.
- A secondary route might be a window onto an adjacent roof or a collapsible ladder for escape from upper-story windows. Purchase only collapsible ladders evaluated by a nationally recognized laboratory, such as Underwriters Laboratory (UL).
- Plan for everyone in your home, including babies and others who need help to escape.
- Pick a meeting location away from your home.
- Practice getting out with your eyes closed, crawling low to the floor and keeping your mouth covered.
- Involve children in making and practicing your escape plan.
- Teach children to never hide during a fire; they must get out and stay out.
- Clear toys, boxes and other debris from exits.
- Check that windows open easily. Fix any that stick.
- Be sure that security bars on doors and windows have a quick-release latch, and everyone knows how to open them.
- Practice your family escape drill with everyone in your family!

Safety
at HOME

National Safety Council

saves lives by preventing injuries and deaths at work, in homes and communities, and on the roads, through leadership, research, education and advocacy.

Meeting Place

Now, use the space below to create your home fire escape plan

Family Meeting Place: _____

Meeting Place

- Draw a floor plan or map of each floor of your home (additional grid next page)
- Mark two ways out of each room
- Mark all smoke alarms with an SA. Smoke alarms should be outside each sleeping room and on every floor of your home .
- Pick a family meeting place outside where everyone can meet.
- Practice your fire drill at least twice a year!
