

Your case will be assigned to a Detective for follow up based upon specific facts obtained during the initial investigations. Studies have shown that the presence of these facts can predict whether a detailed follow up investigation would likely result in the arrest and prosecution of the suspect(s) or the recovery of property in a manner that is cost effective to you, the taxpayer. It is impossible for Detectives to personally discuss each and every case with all victims. A Detective will not routinely call unless the Detective requires additional information.
